## A car mechanic in London

Nikki Evans is a car mechanic in London. Today we want to share the questions we asked her about her job:

*Why do you like to be a mechanic, Nikki?*

"Because I can have independence. I can also use my hands, and I like to learn how things work".

*Is it difficult for you to work as a mechanic when most in this profession are men?*

Yes. It can be difficult to be a woman in this profession but my experience is showing me that many people prefer to have a woman repair their cars."

*Where do you work at the moment?*

"I don't work for a garage company I work for myself, normally from quarter to eight in the morning to half past five in the evening. I have lunch at quarter past two. I only have thirty minutes to have lunch! I have a lot of work!"
